

SYNERGY OF POSSIBILITIES

We are a synergistic group of companies with over **110 years of experience** in providing solutions to the **electromechanical industry**, which share a common goal:

Thanks to the complementary offer, to provide the best solutions and increase the work efficiency of our customers from a broad range of industries.

We have production facilities in Poland in which we manufacture: flat and round link chains, flight bars, chain assemblies, drop forgings, couplings, bolting machines, drills, friction props, hydraulic aggregates, and many other products. We also carry out industrial and commercial construction projects. Moreover, thanks to the cooperation with our strategic partner - KONKO S.A., we provide comprehensive steel structures prefabrication services for partners requiring high-quality machining and welding.

An extensive and multifaceted worldwide distribution network allows us to stand out with the efficiency of servicing and the ability to quickly adapt to dynamically changing market needs.

KARBON 2

- Comprehensive construction services, including: industrial, residential and specialized construction
- Electromobility – low-speed electric vehicles and electric two-wheelers
- Steel and fuel materials trade
- Gardening equipment and forestry machinery

FASING
S.A.

- Round link mining chains from $\varnothing 14$ to $\varnothing 42$ mm, flat link mining chains from $\varnothing 22$ to $\varnothing 60$ mm, also with optional hot-dip galvanizing
- FAS MAX lifting chains and hoist chains from $\varnothing 8$ to $\varnothing 50$ mm, from 8 to 12 strength class
- FAS FISH chains for the marine and fishing industry from $\varnothing 8$ to $\varnothing 42$ mm, including chains with enhanced resistance to corrosion
- Universal round chains from $\varnothing 8$ to $\varnothing 50$ mm, customized according to customer requirements
- Special chains with increased abrasion resistance, heat-resistant, zinc-plated, carbon-hardened
- Chain accessories: flight bars for outboard and inboard chain assemblies, locks, connecting links of various types and applications, complete chain assemblies
- Drive sprockets for chains in the range from $\varnothing 14$ to $\varnothing 60$ mm, according to individual customer specifications

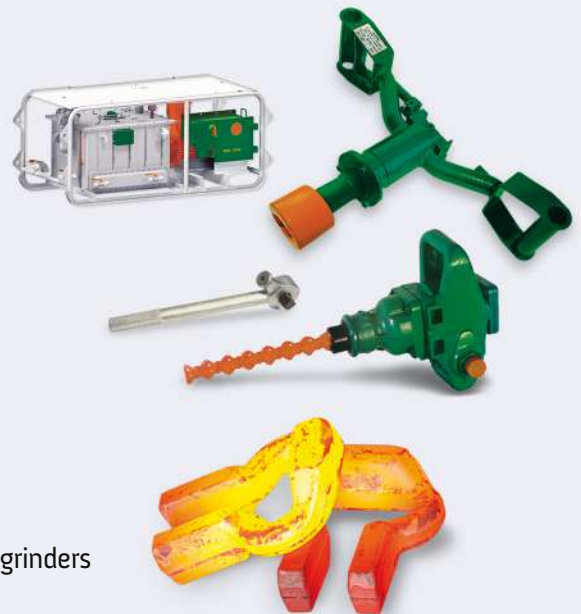

OUR PRODUCTS ARE USED BY OVER 4000 USERS IN 50 COUNTRIES

KUŹNIA OSOWIEC

- Hot forged die forgings
- Highly flexible, flexible and fluid couplings
- Electric and hydraulic drilling machines
- Pneumatic roof bolting machines
- Hydraulic aggregates
- Torque and ratchet wrenches
- Line oil lubricators, friction props, support legs
- Assembly and welding of steel structures
- Services of machining on lathes, milling machines and CNC grinders
- Industrial boring services

STRATEGIC PARTNER

- Complete sections of hydraulic roof support
- Beam stage loaders (BSL) and armored face conveyors (AFC)
- Elements of transport systems (suspended monorails)
- Belt conveyors and spare parts
- Repairs of the aforementioned components
- Regeneration of cables
- Steel constructions of machines and devices
- Burning, beveling, bending, welding, machining, 3D scanning

WE OPERATE IN KEY INDUSTRIAL SEGMENTS ACROSS THE WORLD!
